

6x4x16 Split Face CMU

6x4x16 Standard

Features

When used as a field, the course module of 4-inch high cmu creates a more traditional scale, expressing the warmth of historical masonry. 4-high units are also effective as banding elements to add sightlines and interest to large elevations.

Availability

Special order only. Other configurations may be available. Units can be produced with multiple split sides, and may be made in any of our integral color options on special order.

Standards

Concrete masonry units manufactured by Angelus Block Co., Inc. meet ASTM C90 Standard Specification for Loadbearing Concrete Masonry Units.

Fire Rating

Solid grouted walls 8-in wide and greater are rated at 4 hours, per CBC Table 721.1(2). For partially grouted walls, depending on the specified weight classification, 8-inch wide units are 1 hour to 2 hours, and 12-inch wide units are 2 hours to 3 hours.

Sustainable Features

- This product is included in Type III Environmental Product Declarations for Angelus Block Concrete Masonry Units, specific to location and mix designs, and in one of six *Health Product Declarations*, as applicable for its weight classification.
- Contributes to green rating systems calculations, including Regional Materials, EPDs, and Material Ingredient Reporting.
- Angelus Block CMU help facilitate and support many more strategies and credits, including Optimize Energy Performance, Construction Waste Management, and several within Indoor Environmental Quality. Angelus Block CMU contain no VOCs.

See *Sustainable & Resilient Design: Angelus Block Products' Application to Rating Systems and Code* for detailed information. A copy is available from your representative, or as a download at www.AngelusBlock.com.

Variation in aggregate exposure is inherent in all split face products.

Cells and web configurations as shown are representational only, and actual configurations may differ.
